**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese 62-6147.

Regarding claim 1, Japanese '147 discloses a vehicular cigarette lighter device in which a cigarette lighter attachment portion having a substantially horizontal surface shape is provided on an inside surface of a cabin, a cigarette lighter is disposed in said cigarette lighter attachment portion so as to be directed in a substantially vertical direction; and a substantially horizontal ash receiving surface which is formed separately from an ashtray is provided under said cigarette lighter attachment portion.

Regarding claim 5, Japanese '147 discloses the vehicular cigarette lighter device, wherein said ash receiving surface is molded integrally with said cigarette lighter attachment portion.

***Allowable Subject Matter***

3. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3612

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other vehicular cigarette lighter devices similar to that of the current invention.
